The cooperating agency letter went out on 14 December and was addressed to Regina.

I'll let Barbara know to cc you on all interagency New Haven stuff.

Hi and Merry Christmas..
More importantly.. happy NEW year.. yes, NEW year.

Okay.. I went through the email and I just have a message from Todd asking who would be a cooperating agency rep for New Haven and that he would send out a doodle. That is why I had no idea what you were talking about.

If Barbara or Larry sent an email.. or you guys are coordinating on this..please make sure I am copied .. the contact here should be regina and me.

If Regina was on larry's email .. than... I am still waiting to see the email...

thanks

Jeannie: The New Haven Harbor deepening study EIS notice of intent will be published in the Federal Register on 27 December.

The scoping meeting will be held on 24 January at the New Haven Hall of Records, Hearing Room, 200 Orange Street, New Haven at 6:30-8:30 PM (registration starts at 6:00).
The study must be completed by April 2018 (draft report for public review).

The Corps PM for the study is Barbara Blumeris (78-318-8737)

The project is to deepen the existing 35-foot channel and turning basin/maneuvering area to 40 feet. That will be about 5 million CY with a couple hundred thousand CY of rock. Some sand, but mostly marine clay, glacial till, and glacial silt deposits - all parent material that should be excludable from biological testing. This will be the Corps #1 project in LIS for the next 6 years - 3 years of study, 1 year final design, 2 years construction. Half the size of the Boston Harbor Deepening project.

Anyway, and more importantly, have a very Merry Christmas. Talk to you next week.

Hi Steve,

I was not asked to provide a response on that issue although I did discuss it briefly with our attorney. I

Hi Mel and Jeannie, Mark Habel had passed along EPA's response to NYDOS' CZMA objection and asked that I provide input to you. He provided some thoughts in the email below that he may have already passed along to you.
